## **For Immediate Release**

*CFO recognized as Chairman of the Year*

### **Rodriguez Honored at Special Ceremony**

*Leadership of Value-Added Committee Brings Recognition*

**(Dallas) August 24, 2007** – the Texas Association for Home Care (TAHC) recognized Robert Rodriguez, President & CFO, Access Quality Therapy Services, for his leadership of the Value Added Committee for 2007. During his chairmanship, the committee implemented its first trade association publication, a cooperative health insurance plan for the association's 1100 members, and a joint marketing agreement with Office Depot.

“This is a great honor.” Rodriguez said. “The work that the committee does to bring value to the association's membership is crucial to building the vitality of the organization. It's a small committee, and only one of 15 standing committees, but it's an important committee. The cooperative insurance plan we put into place is going to enable many of our smaller providers to pool together and purchase health insurance as if they were large corporation, thereby experiencing significant cost savings. This is a real good thing.”

Rodriguez was honored with other awardees during the TAHC annual conference at the Gaylord Resort in Grapevine, Texas at a special ceremony. Over 1100 healthcare professionals, vendors and association members related to the home health industry attended the conference, the largest gathering of its kind.
