(San Antonio, Texas) SURVEY SAYS: ACCESS QUALITY THERAPY SERVICES IS “BEST PLACE TO WORK”

Access Quality Therapy Services has been recognized by the San Antonio Business Journal as one of 47 “Best Places to Work” in San Antonio. Employees were asked to participate in a confidential employee survey, with scores tallied by the independent firm, Quantum Workplace, Inc. AQTS along with other winners of this award will be presented in a special publication of the San Antonio Business Journal. An awards luncheon will be held on June 3, 2010 at the JW Marriott Hotel.

Since inception of the company in 1998, Access Quality Therapy Services has been a leader in health care in the San Antonio community, providing quality nursing, home health and outpatient rehabilitation therapy services.

“It is important to me that our employees enjoy coming to work each day and that our company provides a rewarding, challenging and fun place to work,” says Rob Rodriguez, owner and co-founder of Access Quality Therapy Services.

“Healthcare can be very stressful for both our patients and employees. If our staff is happy, our patients will be happy. It is just that contagious,” smiles Rodriguez.
